

COMMERCIAL NEW CONSTRUCTION ASSISTANCE

RECEIVE FINANCIAL INCENTIVES FOR YOUR ENERGY-EFFICIENT DESIGN DECISIONS

The Ameren Illinois Commercial New Construction (CNC) Offering provides complimentary energy design assistance and financial incentives to help offset the cost of implementing energy-efficient strategies for commercial and multifamily buildings. When you make informed decisions on energy-efficient design options that exceed the efficiency standards of a code-constructed building, you and your clients benefit with financial savings year over year.

COMPLIMENTARY ENERGY DESIGN ASSISTANCE

Customized energy model that simulates energy use to identify strategies with the greatest impact and cost-effectiveness.

DESIGN TEAM INCENTIVE

We offer a design team participation incentive to offset design team time associated with program participation.

CONSTRUCTION INCENTIVE

Incentives for the building owner are based on the annual energy savings and can help lower costs of implementing strategies.

For additional questions, please contact:

STREAMLINED PROCESS TO ACCOMMODATE YOUR PROJECT SCHEDULE

1

ENROLL

Contact us to discuss project details.

2

PRELIMINARY ANALYSIS

Real-time evaluation of energy-efficiency improvements and bundled whole-building strategies.

3

FINAL ANALYSIS

Pick the best fit for your goals, and we'll analyze energy savings and eligible incentives.

4

VERIFY

We confirm your project was built to plan and issue a verification report.

5

EARN

Utility provides incentives for your completed project.

CUSTOMER ELIGIBILITY

Commercial New Construction is available for most project types including commercial, institutional, industrial and multifamily. To qualify, participating projects should be:

- In the Ameren Illinois service territory
- New construction, an addition, or a major renovation with replacement of at least two major systems, including mechanical and lighting systems

CNC ASSISTANCE IS AVAILABLE FOR MOST NON-RESIDENTIAL PROJECT TYPES.

"Any entity that performs installations of energy efficiency measures, or components with electric connections" must be a Certified Energy Efficiency Measures Installer. Details can be found at Illinois Commerce Commission website.
