### Does your facility qualify?

- Non-residential facility
- Electric projects: electric delivery service rate DS2, DS3, DS4, DS5, or DS6 and Energy Efficiency Programs Charge on Ameren Illinois electric bill for the service point corresponding to the electric project. **DS1 customers with a farm on the premise may use this application for farm buildings and remote equipment (i.e. equipment that is not within or attached to the residence).**
- Gas projects: gas delivery service rate GDS2, GDS3, GDS4, GDS5, or GDS7 and Energy Efficiency Programs Charge on Ameren Illinois gas bill. **GDS1 customers with a farm on the premise may use this application for farm buildings and remote equipment (i.e. equipment that is not within or attached to the residence).**

### Does your project qualify?

- Installing new, energy efficient equipment.
- New equipment meets eligibility guidelines as specified in this application.
- Estimated project completion date by December 31, 2025

### What you should know before beginning:

- Pre-approval is **required** for ALL Standard Application projects requesting more than \$10,000 of incentive money. Do not purchase (including generating purchase orders) new equipment until receiving a pre-approval letter.
- Multiple incentive applications less than \$10,000 at the same facility within 120 days of each other will not be accepted. Phased projects requesting less than \$10,000 may submit separate applications when completion dates are at least 120 days apart.
- Stockpiles of equipment are not allowed: all equipment must be installed and operational.
- Projects must be completed within 120 days of equipment purchase date.
- Final application paperwork is due within 30 days of project completion **or by December 31, 2025, whichever comes first.**
- Incentive applications are capped at the project cost, which includes the costs of material and external labor (internal labor is not considered).
- Application paperwork can be submitted via email or hard copy. Emails that include “zip” files or web links cannot be received. You will receive a confirmation email within two business days of submitting an application; please contact us if you do not receive a confirmation email.
- Measures must be either (1) self-installed by an employee of the Ameren Illinois customer listed on this application, or (2) installed by an Illinois Commerce Commission (ICC) Certified Installer to qualify for an incentive. A complete list of Certified Installers can be found at [www.icc.illinois.gov/emdb/ucdb/search](http://www.icc.illinois.gov/emdb/ucdb/search) by choosing Authority Type, ‘Energy Efficiency Installers.’
- Please save a copy of this form to your computer and use Adobe Acrobat to complete the document. Most browsers (Chrome, Internet Explorer, Safari) do not auto-fill calculations.**

### Participation instructions:

- **Step One:** Determine if your project requires pre-approval. If the total incentive request is over \$10,000, pre-approval is required.
- **Step Two, Track A:** If pre-approval is required, submit the application for pre-approval and do not purchase any material or generate purchase orders until a pre-approval letter is issued. You will be notified if a pre-inspection is required.
- **Step Two, Track B:** If pre-approval is not necessary, an application for “funds reserved” may be submitted, or the project may begin.
- **Step Three:** As soon as your project is completed, submit a completed Incentive Payment Request Form and all supporting documentation requested (or an entire application if not previously submitted). Final Application paperwork is reviewed, if approved your incentive will be paid within 60 days of approval.
- **Step Four:** Program staff may conduct a post installation verification inspection upon receiving final application paperwork.

## **2. PRE-APPROVAL, INSPECTIONS AND FINAL APPROVAL:**

- a) For all projects, Ameren Illinois is not obligated to award any incentive payment unless an Application is submitted and Pre-approval is granted. Ameren Illinois will not pay incentives for any EEMs ordered or any purchase order generated prior to the date of the Pre-approval letter, unless the requested incentive is less than \$10,000 on any Standard Initiative Application. Pre-approval reserves incentive funds for a period up to the estimated completion date provided in the Pre-approval letter. After the estimated completion date, Ameren Illinois may revoke the Pre-approval letter and reserved incentive funds. Customer is responsible for ensuring that the project is completed by the estimated completion date, the Application is complete and accurate, and the project meets program eligibility requirements in order to receive final approval and the incentive payment.
- b) A pre-approval inspection and post-installation inspection of the project may be required before an incentive payment is made.
- c) Ameren Illinois reserves the right to request additional supporting documentation as deemed necessary to ensure program eligibility and verify that the expected energy savings will occur.

## **3. INCENTIVE PAYMENT AMOUNTS:**

- a) Incentive caps are defined as follows:
  - i) Standard, Custom, Retro-Commissioning, and Streetlighting Applications: Electric incentives over \$500,000 are likely to be reduced from the full incentive rate based on available program budget. Gas incentives are capped at \$250,000 per project.
  - ii) New Construction Lighting, Feasibility Study, Leak Survey and Repair, Strategic Energy Monitoring, Small Business Direct Install, and Metering & Monitoring incentives are capped all capped at lower amounts. Please see individual program applications for further details.
- b) Ameren Illinois reserves the right to adjust the incentive amount, based upon its independent assessment of appropriate savings or cost estimates.
- c) Ameren Illinois will pay no more than the incentive amount in the Pre-approval letter.
- d) Ameren Illinois reserves the right to cap incentives at \$10,000 for Standard Initiatives that did not obtain Pre-approval.
- e) The sum of all Incentives and any applicable Program Bonuses for Standard Initiative, Custom Initiative, or Streetlighting Initiative will be capped at the project cost, which includes material cost and external labor cost. Internal labor cost is not considered in the project cost. Steam Trap Surveys are eligible for incentives when internal labor is used according to the Steam Trap Application.

**4. MONITORING AND EVALUATION:** Customer grants Ameren Illinois and any of its agents, the right to make follow-up visits, inspections, metering, data collection and/or surveys of the Customer's Facility during the 36 months following the completion date of the project to verify the installation and performance of the EEMs that were funded by incentives upon reasonable notice to Customer. If Customer removes the EEMs at any time or Customer ceases to be a delivery service customer of Ameren Illinois within 36 months after installation, Ameren Illinois shall be entitled to recover from Customer the total amount of incentive payments made plus interest.
